

Product Information Finishing Auxiliaries

Lava[®] Fin BeeWell

Function Softener with natural beeswax and special skin-protecting properties for finishing woven and knitted cellulosic fabrics and blends

- Properties**
- Soft, smooth handle
 - Cares for the skin
 - Good durability to domestic laundering at up to 60°C
 - Suitable for pad application
 - Basically compatible with nonionic and cationic products; preliminary trials are recommended to test liquor stability
 - Dermatologically tested and approved by dermatest

Chemical Characteristics Natural beeswax

Technical Data

Form supplied:	White emulsion
pH:	5.5 - 6.5
Ionic nature:	Nonionic
Dilution procedure:	Pour cold water onto the product to dilute. Alkaline process water must be neutralised before use.
Shelf life:	12 months in original closed containers.

Do not store product below +3°C and above +35°C

Application

Padding

Ecological BeeWell finish:

1 g/l acetic acid 60%

40 - 60 g/l Lava Fin BeeWell

Dry at 110 - 150°C

Soft BeeWell finish:

1 g/l acetic acid 60%

30 - 80g/l Lava Fin BeeWell

20 - 60 g/l Evo Soft MEC

Dry at 110 - 150°C

Note:

The effect of Lava Fin BeeWell may be impaired if fabrics are dried at temperatures above the recommended level. Mild drying conditions are therefore recommended.
